Many of our users last season ended up top 100 of all-time transfer profit. DEALFINDER – Chrome Extension for Fifa 21 our magic tool. 100% client-side – 0% prohibitions – browser view only! No bots – no macros! DEALFINDER helps you identify a lot of transaction in the transfer market in a split second. Be faster! Snape's better! Our friends make a combined profit in 400 million coins/month! So how does it work? Well, we explain everything of course controversially and we have a team and also many friends to help you figure it out pretty quickly. And of course the dispute with a ton of trading tips, investment tips, grade and formation guides and much more is included in the Dealfinder marry. Here's the easy summary – as it's easy to use: you're searching the transfer market – and our expansion will help you identify a lot in the transfer market. I mean, you don't have to do the numbers or look for a player price up. You search and once the search results pop up, you'll immediately see with a color code what a good deal is. Of course everyone has a different understanding of what a good deal is. For some, 5% below the normal market price is already a good deal - others won't bother unless 20% below the market price. So we gave you complete control – you can set yourself what dealfinder will show you. Important: Dealfinder is not a bot – it is a pure display in your local browser that does not mess with any means with any code of the game or web application itself. We don't want anyone to understand that along with a macro or auto buyer! That's why we're understood to have detection programs to shut down those who are prevented from these And bots. Our community is a community of traders, from the players of the players. Using a dealfinder will give you the opportunity to buy and snipe the best players within the game. Have you always wanted this Goullite? If you follow our instructors, he'll play for your team. We promise. And here's the thing: sometimes you even get lucky and snipe one of the really crazy deals. Here are some examples: dealfinder monthly dealfinder annually it depends on your knowledge about the market and your time is available to use the tool, the more you understand what happens the bigger the profit. One thing's for sure, it's worth using Sniperrr more than buying Fifa points! Quick calculation: 750 Fifa points it costs €7.49, with these 750 Fifa points you can buy packages that cost up to 55,000 coins. Sniperrr has a cost of €2,99/month, and in this month of use, depending on your market knowledge you can make the same 55,000 coins in one day, if used 30 days a month with this daily average profit you can get 1,650,000 coins a month, do you catch the view? These add-ons will help you trade with shortcuts and prices. Expanding the FUTSTARZ toolbar will help you easily trade in the transfer market of Fifa Ultimate Group (FUT21) !
